

TEAM CV

Mónica Mar and Arnau Vinós are two artists whose solo careers span over ten years in the Mexican and Catalan scenic-arts respectively. With their previous companies, each has created performances that have impacted contemporary performing arts in their countries of origin. After their meeting at the first Creative Arts and Street Master organised by *FiraTàrraga* and the *University of Lleida* in 2013, they create *foradelugar*, a company that merges their two cultural and creative backgrounds so as to produce winning performances worldwide, using unconventional spaces and multidisciplinary resources.
